

Working Pages:

- **Welcome**
- **About**
- **Contact Us (Under About)**
- **Reviews**

Overall Site Changes:

- Color scheme changed from Green, Black, White to Dark Blue, Light Blue, White
- Website title changed to fixed two lines, instead of alternating depending on screen width
- Header and Footer match color
- Changed font from Verdana, Geneva to Roboto
- Set minimum width to avoid "squishing" text

Navigation:

- Connect with Jim merged with Contact Us
- Tools merged with Knives, Axes & Other Tools
 - Capitalized "Tools"
- For consistency, changed every "and" to "&"
- Fixed bug with some sub-menu navigation links expanding to two lines when hovering over them
- Fixed bug with the more sub-menu going off-screen when the screen width was smaller
- Added all blogs listed under the "Blog" webpage as options for the "Blog" sub-menu
- Fixed bug with the Mobile Navigation Menu being covered up by web page content when scrolling down
- Fixed bug where "More" navigation falls below the rest of the navigation links

Welcome Page:

- Moved welcome message towards the top instead of bottom
- Removed a repeated section about affiliate links
- Removed a repeated section about copyright
- Made slideshow smaller and imported higher resolution images to make it look better
 - Modified sizes of sections, videos, etc for a better user experience
 - Responsive text size
- Replaced PayPal donate button with clickable link for aesthetic purposes
- Changed CTA 'icons' to fillable areas when hovered over to simplify

About / Contact Pages:

- Removed Categories and Search from the side bar
 - I do not know how to implement searching yet
- Fixed bug where "contact form" didn't exist

Reviews:

- Set fixed size for each review
